Bluetooth Printer Setting installation procedure

1, Make sure that your device (such as a laptop) is Bluetooth-enabled, then activate Bluetooth, Bluetooth started successfully, you can see it as below:

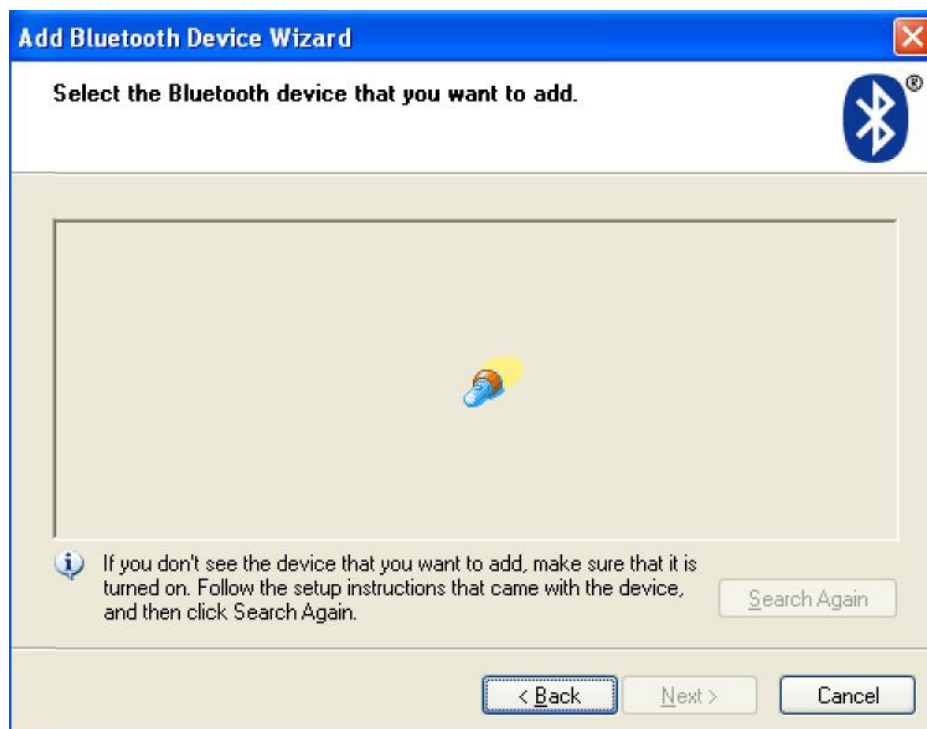

2, Power on the Bluetooth printer.

3, Click "Add a Bluetooth Device" ,then choose "My device is set up according and ready to be found" , and click "Next" (showed as below).

Add a Bluetooth Device
Show Bluetooth Devices

Send a File
Receive a File

Join a Personal Area Network

Open Bluetooth Settings

Remove Bluetooth Icon

Welcome to the Add Bluetooth Device Wizard

Before proceeding, refer to the "Bluetooth" section of the device documentation. Then set up your device so that your computer can find it:

- Turn it on
- Make it discoverable (visible)
- Give it a name (optional)
- Press the button on the bottom of the device (keyboards and mice only)

☑ My device is set up and ready to be found.

⚠ Add only Bluetooth devices that you trust.

< Back   Next >   Cancel

4, The device is searching the bluetooth printer,please wait.

5, If the "Bluetooth Printer" is founded, it will be listed on the screen, then click it and "Next".

6, Choose "Let me choose my own passkey", then enter "1234" (this is factory default password), then click "Next".

7, Once the Bluetooth printer is already connected with your device, then Click"Finish".

(The Bluetooth printer will be automatically assigned a COM port, please remember the assigned COM ports)

8, In the printer driver "Port" select the COM port automatically assigned by the Bluetooth printer, the port setting corresponds to the baud rate corresponding to the Bluetooth serial port (factory default Bluetooth baud rate: 9600, N, 8, 1,), in the "Device settings"→ "Print mode" selected print as "soft font" . After setting finishing, you can print the paper to have a test.
